

5. EU-Guideline on user safety (topical products)

SPC warnings Spot-on's

Example: ProMeris Duo™ Spot-on

(Actives: Metaflumizone/Amitraz)

- “This product contains amitraz, which can have harmful effects in humans. Children should not have access to used pipettes.

Used

pipettes should be disposed of immediately.”

- “Avoid direct contact with treated animals until the application site is dry. Children should not be allowed to play with treated animals until the application site is dry. It is therefore recommended to treat the animals during the evening and that recently treated animals are not allowed to sleep with owners, especially children.”
